* Expanding Scale Sports sales into China
Etc.

Main business

Design, development and manufacture of
electronics

MITSUYA LABORATORIES INC.

Inquiries - 044-988-2088

Since Mitsuya Laboratories was founded in 1970, we have focused on developing and manufacturing electronics, especially for use in security systems. Since 2005 we have been exporting "Scale Sports", a 1/5 scale remote controlled car, mainly to China.

We are able to cut costs and deliver products quickly as one engineer is in charge of each project, from design to development. We are proud of the speed at which we can fulfill our customers' requests. We are also utilizing technology developed for the security field and radio controlled cars in the field of robotic development.

Scale Sports 524R A 1/5 scale
size radio controlled car, weighing 10.1 kg, with
a length of 700 mm and a width of 400 mm.
Certified Kawasaki Monodukuri Brand product
(2009)

**Home Security Unit One (SOHGO SECURITY
SERVICES CO.,LTD.)**
We developed and manufactured the first home
security system for normal residences in Japan.
